

Residential Energy Credits and Investment Credit

IMPORTANT:

The following information is provided as an informational resource. Please consult an appropriately licensed tax professional to determine applicability, eligibility, and requirements.

2019 Instructions for Form 5695 – Residential Energy Credits

You may be able to take credits if you made energy saving improvements, including installation of any insulation material or system that is specifically and primarily designed to reduce the heat loss or gain of your home and meets the prescriptive criteria established by the IECC.

2019 Instructions for Form 3468 – Investment Credit

The investment credit consists of the rehabilitation, energy, qualifying advanced coal project, qualifying gasification project, and qualifying advanced energy project credits. You may be able to take an Energy Credit for equipment that uses solar energy to heat or cool a structure.
